

# Cool the Summer Sun

## Insulate Your Existing Riser Pan Cover

The Insulator Pan is a very cost-effective, simple solution to convert your existing flat pan cover into an insulated cover, screen room, or glass enclosure.

The temperature under the cover is dramatically improved. The system offers an affordable, incremental solution for cooling the hot summer sun and enjoying the outdoors again.

### Convert from:

- Single Skin to Insulated Roof
- Screen Rooms to Glass Rooms

### Insulation:

- Reduces Heat in the Summer
- Keeps Cold out in the Winter
- Reduces Condensation
- Dampens Noise
- Quiets Existing Covers

**Install Now...or Retrofit Later!**
