with **OSB SIPs**

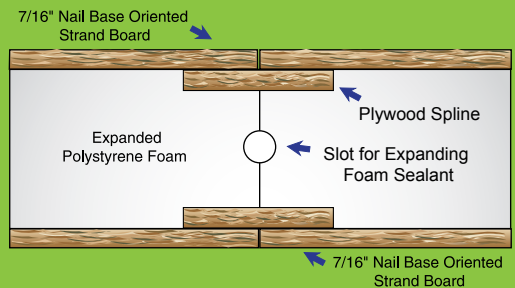

- Each panel combines framing, insulation, and sheathing for quicker construction time.
- More energy-efficient than stick-built.
- Use same siding and roofing material to blend with existing home.
- Foam thickness correlates to R-value.
- Vertical and horizontal electrical chases.
- Expanded polystyrene is continuous. Air cannot pass between joints.
- EPS core resists water whereas batt insulation absorbs water.
- EPS insulation adhered to OSB provides stronger, straighter walls.
